HOUSE RULES · 6 DECKS WITH JOKERS · 4–6 PLAYERS

Hand *Knee &* Foot

Play in partnerships. Partners share books.

15	13	11
HAND	KNEE	FOOT

♠ The deal

Shuffle all six decks together. Everyone deals out their own cards: **15 for the hand**, **13 for the knee**, **11 for the foot**. Keep the knee and foot face down and don't look at them.

Start a discard pile with one card from the stock.

♥ Your turn

1. **Draw 2** from the stock, or take the discard pile (below).
2. **Lay down** cards: start a new pile with 3 or more of a rank, or add to your team's piles.
3. **Discard 1** to end your turn.

Taking the discard pile: only if you hold **2 cards matching the top card** and lay all three down right away. You take the **entire pile**.

♣ Knee & foot

- **Knee:** pick it up once your team completes its **first book**. You and your partner can both pick up at the same time. It goes into your hand.
- **Foot:** pick it up once you have played **every card in your hand**.

♦ Threes

- **Red 3s** are banked right away: lay them face up in front of you as soon as you get them. On your first turn, draw a replacement for each red 3 you were dealt.
- Each banked red 3 is worth **100**. **Seven** together are worth **1,000**, and each one after that adds 100. 5 red 3s = 500; 8 red 3s = 1,100.
- **Black 3s** can't go in a book. Get rid of them by discarding.
- Any 3s still in your cards at the end count against you (see scoring).

♠ Going out

You **cannot go out** until your team has all five required books. Then play out your foot to end the round.

☐ Wilds ☐ Clean ☐ Dirty ☐ Sevens ☐ Fives

♥ Books

Seven cards make a book. Wild cards are **2s and jokers**.

BOOK	BONUS
Sevens Seven 7s, no wilds.	**5,000**
Fives Seven 5s, no wilds.	**3,000**
Wilds Seven wild cards: 2s and jokers.	**2,500**
Clean Seven of one rank, any suits, no wilds.	**500**
Dirty Seven of one rank with wilds mixed in, such as five 9s and two 2s. A dirty pile must always have more naturals than wilds, even while you build it: a pile of 6s needs more 6s than 2s and jokers.	**300**

All five books above are **required** before anyone on the team can go out. The required sevens and fives must be **clean**. Once they're closed, extra 7s or 5s piles may use wilds and score as dirty books.

♣ Card values

CARD	POINTS
Joker	**50**
2 (wild)	**20**
Ace	**20**
8 through King	**10**
4 through 7	**5**

♦ Scoring each round

Book bonuses (table above)	+
Each red 3 banked Seven together = 1,000; extras +100 each	**+100**
Every card your team laid down	**+ value**
Cards left in your hand, knee or foot	**− value**
Each **red 3** you couldn't play	**−500**
Each **black 3** you couldn't play	**−100**

Highest team total wins.
